Marrick Underground & Striping

455 Sample Yard Road, Corona, CA 92878
(951) 555-0172, estimating@marrick-underground.example

Capability statement

Marrick Underground & Striping builds the pipelines under the street and the striping on top of it. We self-perform water, sewer and storm drain installation, dry utility trenching and thermoplastic striping as a subcontractor on Caltrans, water district and city contracts.

Core competencies

- Water mains, services and fire hydrants
- Storm drain pipe, catch basins and inlets
- Thermoplastic striping, markings and RPMs
- Sewer mains, laterals and manholes
- Joint trench and conduit for dry utilities
- Shoring, dewatering and traffic control

What sets us apart

- Cal/OSHA annual trenching permit and competent persons on every crew.
- Our own fleet of 40+ units, so mobilization doesn't wait on rentals.
- Pipe and striping crews under one sub: we finish the street we dug up.
- Certified DBE and DVBE for state and federal participation goals.
